Disposable or Reusable?

8 Things to Consider

When it comes to things like cost savings, times savings, performance and aesthetics, there are pros and cons to each side. So which do you choose? Consider these 8 important factors:

Sustainability

On average 7,000 disposable curtains per facility would go into waste management vs. resources needed to launder.

Maintenance

Snaps can be used on either curtain option to make change-outs easier and maintain inventory efficiency.

Performance

Liquid repellent and stain resistant textile fabrics outlast disposable curtains and prevent the need for constant laundering.

Privacy

The thickness of reusable curtains adds an extra layer of sound and sight privacy.

Technology

Both curtain types can offer antimicrobial technology to maintain a clean environment.

Cost

Reusable curtains cost 70% less per curtain on an annual basis.

Aesthetics

Consider the softer look and feel of textiles over disposables in your design and the perception among patients.

Placement

Areas that change curtains multiple times per day are great candidates for disposables whereas reusable curtains work great in areas that don't require frequent change-outs.

Standard Options

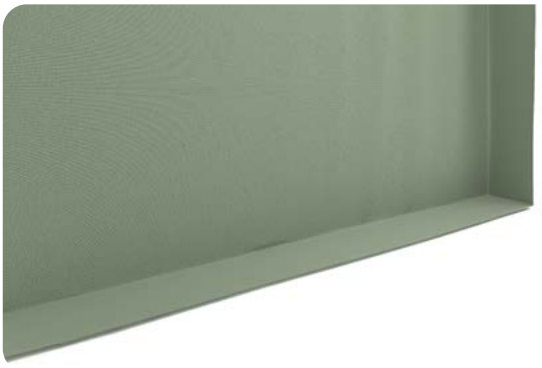
Shower Curtains + Accessories

Shower curtains are custom fabricated to your specific dimensions. Pre-made options also available. (pg. 138)

Standard

Standard shower curtains are custom-made to your specifications. Pre-made options in popular colors available online at inpro.com.



Water Barrier

Create a temporary barrier along the shower floor and edges with outstanding water leak prevention that meets ADA requirements. Available in Super Bio Stat™ fabric.

Security

Security Shower Curtains are ideal for detention centers and lab testing areas. Mesh on top for air/steam circulation, 38″ (96.5cm) Super Bio Stat™ middle and 22″ (55.9cm) translucent vinyl bottom. Custom sizes available.

Chalet

Chalet Shower Curtains are 100% polyester with a Visa® finish that resists stains and dirt. The fabric is treated with an antimicrobial agent to inhibit the growth of mold and mildew, making these curtains easy to clean and maintain. (See next page for additional fabric options)

Shower Rods + Rings

For our full product offering visit inpro.com.

Shower Curtain Fabrics

Super Bio Stat™ $

Stain resistant + antimicrobial to inhibit the growth of mold + mildew.

inpro®

obsessed with protecting buildings®

How they look. How they function.
And how they protect the health and safety
of the people who use them every day.

That's why we make hundreds of architectural
products all under one roof and work tirelessly to
make sure you and your buildings succeed.

Yeah, we are obsessed. But we wouldn't
have it any other way.
